Professional Summary

Detail-oriented Computer Science (B.Tech) student and aspiring Data Analyst with hands-on experience in Python, SQL, and relational databases (MS SQL Server) for data cleaning, querying, and analysis. Skilled in transforming raw data into actionable insights through statistical analysis and Excel-based visualization.

Technical Skills

Languages: Python, SQL, Pandas, Numpy
Databases: MS SQL Server, MongoDB (NoSQL), DBMS, Relational Database Design
Analysis & Tools: Microsoft Excel (Pivot Tables, VLOOKUP, Charts), Data Cleaning, Data Wrangling, Data Visualization, Statistical Analysis, CRUD Operations
Concepts: OOP, Salesforce CRM, Access Control & Data Security | **Soft Skills:** Analytical Thinking, Problem Solving, Attention to Detail, Communication

Projects

Sales Data Analysis & Dashboard *Python, Pandas, Excel*

- Cleaned and analyzed a ∼10,000-row retail Superstore dataset using Python (Pandas, NumPy) to identify trends in revenue, customer segments, and product performance.
- Built pivot tables and interactive charts in Excel to visualize KPIs (monthly sales, top products, regional performance), presenting findings in a summary dashboard.
- Delivered actionable recommendations that highlighted a 18% revenue swing in the Consumer segment, demonstrating an end-to-end data-analysis workflow from raw data to insight.

Student/Employee Records Management System *SQL, MS SQL Server*

- Designed a normalized relational database schema (3NF) in MS SQL Server to manage student records, including tables for personal details, attendance, and performance.
- Wrote complex SQL queries (JOINs, subqueries, aggregate functions, stored procedures) to generate reports on attendance trends and performance summaries.
- Improved data retrieval efficiency by indexing frequently queried columns, reducing query execution time on test datasets.

Internship Experience

Advanced Cybersecurity Intern – Salesforce *May 2025 – Jul 2025*

- Completed an intensive cybersecurity internship on real-world threat detection, vulnerability analysis, and incident mitigation, applying enterprise security frameworks to safeguard sensitive data.
- Enforced role-based access control (RBAC) policies across structured data systems, applying Salesforce platform security and data-protection best practices.

Achievements & Certifications

- **Google Cybersecurity Certification** *May 2024*
- **Salesforce Certification** *Jul 2024*
- **MongoDB Certification** *Aug 2024*
- **CISCO Programming Essentials in C** *Dec 2023*
- **Spoken Tutorial C++ Training Certificate** *Nov 2023*

Education

Arya College of Engineering & IT, Jaipur (RTU) *Aug 2022 – May 2026*
B.Tech – Computer Science Engineering
Relevant Coursework: Database Management Systems, OOP, Statistics & Probability

Rajasthan International School, Jaipur – Senior Secondary (XII), CBSE *Jul 2022*
Emmanuel Mission School, Jaipur – Secondary (X), RBSE *Jul 2020*
